Toolbox talks via WhatsApp

Safety briefings on every worker's phone. In their own language, with no app or login, and recorded automatically.

E-lia

THE CHALLENGE

Five familiar challenges with toolbox talks

Spread out
Workers are spread across projects and sites.

Costly
Pulling everyone off the job costs time and money, every time.

Language
Not everyone speaks or understands English well.

Content
You are always looking for good content that fits.

Engagement
During the talk, people's minds are elsewhere.

E-lia solves all five, via WhatsApp.

HOW IT WORKS

From toolbox talk to record, in four steps

1

Choose the talk

From the library or from your own material.

2

E-lia sends it

Via WhatsApp, at the chosen time, to the right group.

3

Watch and answer

Video and knowledge check in 5 to 8 minutes, in their own language.

4

Recorded automatically

With reminders until everyone has finished.

WHY WHATSAPP

Everyone reached, in every language

95%

of recipients complete the talk and answer the questions.

50+ languages, including the videos
Everyone watches and answers in their own language.

Just WhatsApp
No app, no login. Under your own company name.

5 to 8 minutes
Automatic reminders until the talk is completed.

TOOLBOX TALK LIBRARY

The content? It’s already there

80+

interactive toolbox talks with animated videos, written by a senior safety professional and added to every month.

- Working at height – Ladders
- Mobile towers
- Lifting: lift plan
- Point of work risk assessment
- Asbestos
- Working near live equipment
- Confined spaces
- Hazardous substances
- Excavators
- Forklifts
- Heatwave
- Challenging unsafe behaviour
- and 70 more

Your own talks?
We import your existing PDFs and PowerPoints for you.

Topic missing?
Then we create that talk for you.

ON SITE AND REMOTE

On site and remote, in one record

Toolbox talk on site

The talk as a PowerPoint during the meeting. Attendees scan a QR code and answer the questions on their own phone.

Via WhatsApp

For anyone who missed it, works alone or is on another project. The same talk, at a moment that suits them.

Both go into the same dashboard. One overview of who completed which talk, however they did it.

RECORDS AND DASHBOARD

Everything recorded, ready for the audit

Live dashboard
Per project, site or group, see who has completed what.

Proven understanding
Knowledge checks show the message really landed.

No chasing
Automatic reminders until everyone has finished.

Ready for ISO 45001 and audits
Export to Excel or PDF, or share a link with the auditor.

ONE CHANNEL, ONE DASHBOARD

E-lia does more than toolbox talks

Subcontractors

The same talks, no account needed, with an overview per company.

Site inductions

QR code at the gate: induction and test before access.

Point of work risk assessment

The last check before starting, on the phone.

Workplace inspections

With photos, time stamp and follow-up of issues.

Work instructions

Step by step, on the phone and in any language.

Onboarding

New colleagues get the basic instructions from day one.

Live quickly: users synced from your own systems, or just send us a list. A 45-minute starter training and you are up and running.

THE PRICE

Working safely doesn't have to be expensive

Platform, 80+ toolbox talks, 50+ languages, reminders and audit records. **All included.**

from

£20

per worker per year

including the toolbox talk library

Try it yourself? Scan the QR code and get a test toolbox talk on your own phone.
